PROFILE

Proven Data Engineer with a history of driving excellence on both sides of a data engineering team. I am as comfortable to working with any team as I am contributing towards effective data engineering. I am excited to continue strengthening my career and increasing my skill set by bringing excellence to Organization.

EXPERIENCE

ASSOCIATE DATA ENGINEER

Accenture Solution Private Limited

March 2022 – current / Indore, Madhya Pradesh

- Built, maintained, scaled, and supported 4+ existing data pipelines.
- I developed and deployed a data pipeline that processes semi-structured data with a 65% efficiency rate, using Redshift and AWS Glue, SQL.
- Managed updates for 5+ channels with improvements without disrupting ongoing operations.
- Achieved a data pipeline uptime of 99.8% by managing the ingestion of streaming and transactional data from eight distinct primary sources, utilizing technologies such as Spark, Redshift, S3, and Python.

JUNIOR DATA ENGINEER

Cyber Infrastructure Pvt Ltd

April 2021 - March 2022 / Indore, Madhya Pradesh

- Automated ETL processes have been implemented across billions of rows of data, resulting in a 35% monthly reduction in manual workload.
- Utilized SQL and Python to ingest data from various sources, resulting in the creation of over five distinct data views.
- Automated ETL processes have been implemented across billions of rows of data, resulting in a 35% monthly reduction in manual workload.
